Idaho Falls Teacher Aviation Workshop

Dear Teachers:

I can tell from the telephone calls I have received that I have taken too long to send you this letter. I apologize for the delay. Below are the specifics on the upcoming workshop in Idaho Falls.

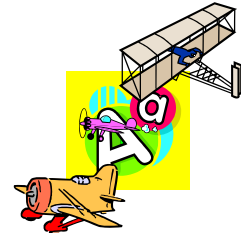

The workshop will be located on the Idaho Falls Regional Airport (Fanning Field) at 2255 Foote Drive. We will be in hangar #7, which is on the east side of the airport, two hangars prior to the big log hangar at Red Baron Aviation. I will have a small sign outside to help you locate the hangar. Attached are two maps that will help you orient yourself. Should you have any problems, I will have my cell phone and you can contact me at 208-860-6492.

We will begin checking everyone in at 7:30 AM on Thursday, June 22. Classes will begin at 8:00 and run until 4:00 on both days. Refreshments and a light lunch will be provided. A tour of Pacific Fighters, a local aircraft restoration business is scheduled for Friday afternoon.

Please do not hesitate to contact me if you have any questions.

Sincerely,

FRANK W. LESTER, JR.  
Safety/Education Coordinator  
Idaho Division of Aeronautics  
208-334-8775
